

EDUCATING WITH COMICS

Educating with Comics is an entertaining way to introduce a new work-related topic to your students, underscore a point, or summarize a lesson. The cartoons can be used effectively for units on work ethics, responsibility, attitude, customer service, communication, teamwork, time management and many, many others.

Conveniently packaged on a USB drive in sets of 20 cartoons per topic (one per page), you may mix and match the ***Educating with Comics*** subjects to fit your classroom needs. By adding a bit of “serious fun” to your classes, you’ll engage your students and motivate them to remember the important points they need to carry away.

- Each set of 20 cartoons delivers an important workplace message in an entertaining and memorable manner.
- You can build customized groups of cartoons to fit your specific courses.
- Working with comics delivered on CD in PDF format (one comic per page), you have the choice of preparing overhead transparencies or handouts or sending the comics to your students’ computer terminals.
