

## **Add a Career/Academic Integration Dimension to Your Classroom in *less than 15 Minutes.***

By introducing these short daily lessons as part of your curriculum, your students can explore the relationship of **math, English, science, social studies, communication** and **workplace ethics** to a wide variety of careers. In 10-15 minutes per lesson, ***A Lesson a Day*** gives your students a clearer understanding of the academics needed in a job.

- No extra planning time is required to get the lessons up and running.
- All PDF lessons are delivered online and are also available on USB drive.
- Substitutes can use ***A Lesson a Day*** to keep class tempo moving in the teacher's absence.
- Solutions are provided for all activities.
- Lessons are brief for students with short attention spans.
- Lessons can be evaluated for a grade or used as a learning project only.

40 lessons connect careers with math and science

40 lessons connect careers with English, social studies, communication and workplace ethics

### ***A Lesson a Day Site Licenses***

The *A Lesson a Day* annual site license entitles all teachers and students in one building/school to use either the online or USB drive, the USB can be installed on a network or individual computers.
