

Managing Your Money

Managing Your Money for personal finance classes Interactive online or on USB drive!

Managing Your Money teaches your students to meet the day-to-day challenges of spending, budgeting, banking, borrowing, and financial planning. Students learn concrete ways to match their lifestyle to their paycheck through topics such as paycheck deductions, renting an apartment, buying a car, and planning for the future.

- Each of the 80 lessons contains ten concrete money management points with discussion and examples.
- Videos engage students in thinking about their personal money concerns.
- Easy-to-understand lessons target money-related concerns of entry-level workers.
- All 80 lessons include a True/False assessment that provides answer feedback and a related activity.

The Teacher's Desktop, available with the online version only, saves teacher time by providing pre- and post-testing, student score reporting, the ability to select required and optional lessons, and much more.

To turn your classroom into a personal money management workshop, take our **Managing Your Money Guided Tour** by clicking [here](#).

Student version	The Teacher's Desktop (Online only)
<ul style="list-style-type: none"> • Videos by topic • Practical content • Assessment and activity for each lesson • Easy navigation • Drop-down menus • Certificate of Completion 	<ul style="list-style-type: none"> • Class roster • Pre- and post-test capability • Ability to select required and optional lessons • Option to establish minimum score and reset lessons • Simple score reporting, exportable to Excel • Multiple rosters by classes or schools
